## INCOME TAX INDORSED

Industrial Commission's Expert Says  
It Is Most Equitable.

### CONCISE SUMMARY OF TAX SYSTEMS

Real Estate and Some Forms of Personal Property Unduly Burdened While Wealth Does Not Bear Its Just Share of Taxation.

Washington, March 27.—The industrial commission has made public a report on taxation of corporations prepared by its expert agent, George Clapperton. The report makes a volume of 178 pages. The greater part of it is devoted to a summary of the tax system of the states of Massachusetts, Connecticut, New York, New Jersey, Pennsylvania, Ohio, Indiana, Michigan, Illinois, Wisconsin, Iowa and Texas.

Mr. Clapperton says he found the general property tax system prevailing in all the states but there are distinctive features in the various states which are especially marked in the taxation of corporate property. He does not indorse the system of levying a fixed rate upon net earnings which is in vogue in Delaware and Virginia, finding that while the system is theoretically satisfactory it "does not meet the varied business developments of corporations." He also finds the general property tax unsatisfactory. On this point he says: "It is clear that under this system there are numerous forms of wealth that do not and cannot be made to bear a just share of the public burdens and which in large part evade or escape taxation; and some forms, which when reached at all under the prevailing general property tax, are not equally and uniformly but unjustly and disproportionately taxed as compared with other property. The inevitable result is that real estate and some forms of personality are unduly burdened with taxation."

Upon the whole, Mr. Clapperton concludes that an income tax is the most equitable, saying: "There is a growing class of citizens who receive large incomes or salaries and enjoy all the advantages of society and good government, who, though possessed of abundant ability to pay taxes, are, under existing systems, practically exempt from taxation or inadequately taxed. This class is receiving and must continue to receive especial attention in the revision or reformation of taxing systems in the several states. While a tax upon individual incomes is generally conceded to be just and equitable in principle it has been received with disfavor and regarded as impractical in its operation. It is apparent, however, to the careful student of commonwealth taxation, that because of its justice and the increasing efficiency of state administration methods that are being evolved, the idea of a limited supplementary state income tax is growing in favor and coming to be more generally regarded as a practical measure under state supervision."

### Internal Revenue.

Washington, March 27.—The monthly statement of the collections of internal revenue show that for the month of February, 1901, the total collections were \$22,660,437, an increase of \$1,850,771 over the corresponding month last year. The collections from the several sources of revenue are given as follows: Spirits \$9,677,764, increase \$1,376,242; tobacco \$4,623,115, decrease \$115,297; fermented liquors \$4,287,439, increase \$84,666; oleomargarine \$187,092, decrease \$18,551; special taxes not elsewhere enumerated \$24,643, increase \$2,849; miscellaneous \$3,860,582, increase \$520,862. For the last eight months the total collections were \$203,100,150, an increase over the same period in 1900 of \$7,491,272.

### Revenue Rulings.

Washington, March 27.—The commissioner of internal revenue has held that a legacy for literary, charitable or educational uses on which tax has not been paid prior to March 1, 1901, is exempt from taxation. This decision was made in the case of a legacy to the Philadelphia school of design for women. The commissioner also accepted a court ruling to the effect that "goods are offered for sale" at the place where they are kept for sale, and where a sale may be effected. They are not offered for sale elsewhere by sending abroad an agent with samples or by establishing an office for the purpose of taking orders.

### New York Ordered to Manila.

Washington, March 27.—Secretary Long cabled an order to Admiral Rodgers, on board the cruiser New York at Tangier, to proceed at once with that vessel to Manila. This is an abandonment of the plan to have the

New York convey United States Consul General Gummere from Tangier to Mazargan, in the attempt to collect American claims. It is the purpose of the state department to endeavor to adjust these claims and other outstanding issues against Morocco without any show of force and in the ordinary practice of diplomacy.

### BOERS BADGER BRITISH.

Not Fighting in a Bunch But Scattered And on the Alert.

Cape Town, March 27.—Indecisive encounters at widely separated points are reported daily. Fighting took place Tuesday at Tarkas and Henningfontein, both in Cape Colony. The casualties were few. A commando numbering 200 under Commandant Fourie, was dispersed at Thabanchu.

According to reports received here, the hills above Dewetsdorp, just reoccupied by General Bruce Hamilton, were also the scene of a fight lasting several hours Tuesday.

### Milner May Resign.

London, March 27.—It is rumored that Sir Alfred Milner contemplates resigning his post as governor general of the Transvaal colonies. He has become dissatisfied over having Lord Kitchener for a checkmate to his proposals, and wants either a free hand or no hand. Correspondents report from South Africa that Lord Kitchener's policies and operations have fallen short of expectations.

### Oom Paul Not Coming

New York, March 27.—Charles D. Piece, representative of the Orange Free State, said there was no truth in the story circulated in Paris that Mr. Kruger was to come to this country to give a series of lectures.

### Again the Ballot Failed.

Lincoln, Neb., March 27.—With but one day left to ballot for United States senator, the vote showed little change. Senator Arends, who has been voting for D. E. Thompson, the caucus nominee, changed to a new candidate, Judge Paul Jensen of Nebraska City. Four members, who have been remaining out of the caucus, went with him. The senator explained his vote by the declaration that it was time to desert all candidates and take up new men. The ballot: E. D. Thompson 57, Hinshaw 7, Melkiohn 24, Currie 7, Crounse 7, Rosewater 29, Allen (Fusion) 48, W. H. Thompson (Union) 6, Hitchcock (Fusion) 44, Lyman (Fusion) 21, Baldrige 2, Jensen 5.

### Father Phillips Saw Morgan.

New York, March 27.—The Rev. Phillips and the Hazleton and Pottsville delegations had a conference with J. Pierpont Morgan in his office regarding the situation in the anthracite coal fields. Father Phillips retired with Mr. Morgan into the latter's private office, while the other members of the committee remained outside. He remained but a few moments, leaving the office without making any statement to the reporters as to the result of his call. Senator Hanna was in Mr. Morgan's office while Father Phillips was there, but did not take part in the conference.

### Ohio Incorporations.

Columbus, O., March 27.—Thornton Statuary and Importing company, Cincinnati, \$10,000; Dime Savings Bank and Loan company, Toledo, increase from \$50,000 to \$100,000; Pioneer Steamship company, Cleveland, increase from \$100,000 to \$110,000; Prudential Trust company, Cleveland, \$1,000,000; Prudential Savings company, Cleveland, \$50,000; Central Contracting company, Cleveland, \$3,000.

### Fire in a Mine.

Republic, Mo., March 27.—Fire started in No. 1 shaft of the Republic mine and resisted all efforts to extinguish it. No estimate of the loss can yet be made. The mine has been closed, throwing 500 men out of employment. All the miners escaped.

### Murdered By Robbers.

New Orleans, March 27.—A horrible crime came to light when John Favallona and his daughter Annie were discovered cold in death in their home on Perdido street. Both had been murdered by burglars, who ransacked the premises.

### Rails For Chili Roads.

Pittsburg, March 27.—The Carnegie company has received an order from the Chilean government for 16,000 tons of standard steel rails for the roads of that country. The rails are to be delivered within two months.

### Massillon Mine Agreement.

Massillon, O., March 27.—Miners and operators have reached an agreement on the new wage scale to take effect April 1, concessions having been made by both sides, but generally favorable to the miners.

William Deardurff, 20, clerk, in jail at Kansas City, charged with stealing \$3,100 worth of diamond rings from Edward & Sloan, his employers.

## CHINA DID NOT SIGN.

Russia's Plans Regarding Manchuria Up In the Air.

### NATIVE HOSTILITY TO FOREIGNERS.

Outlaws in Regions Policed by Foreign Guards Make It Dangerous to Travel in the Country—Disagreement on Indemnities.

Peking, March 27.—The Chinese had not signed the Manchurian agreement when the time expired, at midnight, March 26.

Ministers of the powers do not consider the murder of the Rev. J. S. Stonehouse of the London Missionary society, who was killed by Chinese brigands 14 miles east of Tien Tsin recently, affects the Chinese situation politically. They are perfectly aware that the country around Shi-Nan is infested with robbers, who are naturally hostile to foreigners and would take such an opportunity to kill.

Mr. Rockhill, the special commissioner of the United States, says he does not consider it safe for people to travel alone in the country districts, and guards can not be supplied to the missionaries. Consequently those going into the country take considerable risk. The district in which the murder was committed is policed by foreign troops. Therefore China is not officially responsible.

The foreign troops practically looted Shi-Nan of everything worth taking, and the people there are indignant against all foreigners. Missionaries attribute the murder to the leniency of the powers toward China, which makes them seem to be afraid.

The ministers have many different views on the indemnity question, which may result in considerable delay in the negotiations on that subject.

### May Yet Be Signed.

St. Petersburg, March 27.—It is stated on competent authority that the Russo-Chinese agreement will probably be signed shortly. However, the negotiations continue and the result is not yet certain. While it is possible the details will be slightly modified, the arrangements will be substantially as demanded. According to the Russian point of view, an abatement of what are here regarded as moderate demands would be inconsistent with Russian interests and would not sufficiently safeguard the frontier and railroad. The draft of the agreement now being discussed does not mention and does not affect Mongolia or Turkestan. It concerns Manchuria alone.

### British Protest.

Washington, March 27.—A dispatch was received here stating that the British government had made a protest against China's negotiating a convention with any power touching territorial or financial affairs until the present troubles are settled. The protest was made through Sir Ernest Satow, British minister at Peking. It is understood to have been made within the last day or two. The Russian agreement is not specifically referred to, but it is stated, the British action is directed against that agreement.

### Confirmed From Japanese Sources.

London, March 27.—Officials of the Japanese embassy confirm the report that an imperial decree has been issued by the court at Sian-fu through Lin Kun Yi, viceroy of Nankin, ordering that the Manchurian convention should not be signed March 26, the date fixed by Russia. An intimation of this decree has been telegraphed to the various governments concerned.

### Turkey's Financial Straits.

London, March 27.—Advices from Constantinople are to the effect that affairs are rapidly reaching a dangerous pass there. Turkish finances are in an inextricable confusion. All government salaries are from six to eight months in arrears. Upward of £1,000,000 (Turkish) are due for war material, while the military expenditure is daily increasing. In order to cope with the rebellion in the province of Yemen, in southern Arabia, and the possible rising in Macedonia.

### Low Wages in England.

London, March 27.—In consequence of the reduction of the selling price of iron, wages throughout the north of England, in the manufactured iron trade will be reduced 7½ per cent April 1. This is the largest reduction recorded since the adoption of the sliding scale in 1889. The production of manufactured iron for the months of January and February of this year is 2,000 tons less than for any two preceding months since 1889.

Double header freight train on Wisconsin Central jumped track at St. Paul. Five trainmen injured.

### NICARAGUAN BOUNDARY.

Ex-President Cleveland Lectures on Famous Controversy.

Princeton, N. J., March 27.—Ex-President Cleveland delivered at Alexander hall, Princeton university, the first of two lectures on the national boundary dispute between Great Britain and Venezuela, which dispute involved the boundary line separating Venezuela from British Guiana. Mr. Cleveland at the outset spoke of the vagueness on the subject of boundary lines in the establishment both of the Venezuelan republic and of British Guiana. He then referred to the initiation of the dispute in 1841 between the Venezuelan minister to Great Britain and Lord Aberdeen, chief secretary of state for foreign affairs. The making of the Schomburgk survey and its bearing upon the dispute were fully explained. It was in 1876 that Venezuela appealed to the United States, begging our government "to give the subject its kind consideration, and take an interest in having due justice done to Venezuela. This appears to be the first communication addressed to our government on the subject of a controversy in which we afterward became very seriously concerned." Quoting from documents, Mr. Cleveland showed the repeated appeals of Venezuela to Great Britain in favor of settling the question by arbitration on the whole subject, declaring that their constitution prevented them from making grants of territories except by a process the result of arbitration. Meanwhile England constantly refused arbitration on the general subject, declaring that it feared the Venezuelan constitution would still be used as a pretext for disobedience to an award. The British government at one time offered a plan of arbitration which did not cover the entire disputed territory, but never consented to arbitration such as proposed by Venezuela, and which would include the entire territory in dispute.

The lecture with much detail brought down the history of the boundary contention to September, 1893.

Mr. Cleveland's second and concluding lecture on this subject, Thursday night, will deal principally with the part taken by the United States in the settlement of the long controversy which resulted in arbitration and a fixed boundary line.

### Sugar War Ended.

Toledo, March 27.—It is claimed that although the suit in the supreme court of Ohio, in the war between the Arbuckles and the American Sugar Refining company, has not yet been withdrawn, that action will be taken and the bitter fight between the two companies is at an end. The exact terms of the agreement are not made public, but this much is known, both will continue to handle sugar and coffee, and the price will be governed entirely by the price of the raw material. While there has been considerable talk that the two lines would be split up, the Arbuckles taking the coffee business and the American the sugar end of it, neither desires to withdraw any part of its trade, and both feel more secure to handle the two articles. The Woolson Spice company's plant in this city will not be closed, as rumored.

### Carnegie Monuments Proposed.

New York, March 27.—Councilman Francisco at the meeting of the council introduced a resolution expressing appreciation of the services of Mr. Carnegie and directing the mayor to appoint a committee of nine to take steps for erecting a statue of Mr. Carnegie in each borough of the city, in order that the fact may be more fully emphasized while Mr. Carnegie is yet living that the people of New York hold him in veneration and esteem. Councilman Cassidy said that as Mr. Carnegie is not dead the libraries, he thought, would be "monuments enough." Mr. Guggenheim said the resolutions were out of order, inasmuch as the city is not yet in a position to accept Mr. Carnegie's gift. The resolutions were withdrawn until the city is so empowered.

### Lloyd Smith's Victory.

Chicago, March 27.—Lloyd J. Smith, former manager of the Chicago Elevator company, was released from custody and the remaining five indictments against him quashed. Smith was charged with permitting grain to be shipped from the elevators under his management without cancellation of the warehouse receipts. The hearing came up under habeas corpus proceedings, and the court granted the writ, holding that the standing indictments accused him of no crime under the statutes. The case has been to trial twice, the jury disagreeing on the first trial and Smith being acquitted on the second trial.

Madrid, March 27.—At the town of Almodovar del Campo, 3,000 miners are on strike. Work has stopped and the mines are flooded.

## CLAIMS AGAINST SPAIN

Indemnities Demanded by Americans For Losses In Cuba.

### TOTAL IS THIRTY MILLION DOLLARS.

Schedule Delivered to the Commission Appointed to Pass Upon the Merit of these Demands—One Claim Over Two Millions.

Washington, March 27.—The Spanish war claims commission, of which former Senator William E. Chandler of New Hampshire is president, has received from the state department a full list of the claims against Spain, growing out of the insurrection in Cuba, which were filed in the department up to March 15.

These claims are all filed by American citizens, for under the treaty of Paris, the governments of the United States and Spain undertook to adjust the claims of their own citizens. The grand total of these claims is about \$30,000,000, and included in the list are five claims in excess of \$1,000,000.

Mrs. Ruiz, widow of the dentist who was killed in a Havana prison, is a claimant for \$75,000. The largest single claim is that of John W. Brock, on account of property losses estimated at \$2,162,514.

### New Army Regulations.

Washington, March 27.—Assistant Secretary of War Sanger is engaged with several officers in the war department in preparing for the use of the army a compilation of the army regulations. Since the last revision of the army regulations many changes have been made by orders and circulars of the war department, some of which had been made necessary since troops occupied distant territory, and the old regulations are scarcely available for practicable work in the department. Before this revision is completed it is probable that the modifications made necessary under the army reorganization law will be in shape to be made a part of the regulations.

### Stock Perished on the Plains.

Denver, March 27.—Thousands of dead cattle, sheep and horses strew the plains of western Nebraska and eastern Colorado as a result of the blizzard. In hundreds of small ravines and dry beds of creeks the animals crawled to be covered with drifting snow while large numbers struggled against the blizzard to reach shelter, but perished on the ridges. Incoming passengers over the Burlington and Union Pacific say that in every gully are seen the carcasses of animals and that the bodies are scattered over the plains in every direction.

### Sulphuric Horror Averted.

San Francisco, March 27.—It has just become known that the big Austrian steamer Marianno, which arrived last Thursday from Hakodate with a cargo of 3,000 tons of sulphur, was on fire in midocean 10 days before reaching port. Fortunately the fire was confined to the middle hatch and was not on the surface. The complete flooding of the compartment in which was at least 500 tons of sulphur, saved the steamer and possibly the lives of all on board.

### Probably a Canard.

London, March 27.—Scotland Yard authorities refuse to confirm or deny that they are in possession of letters threatening J. Pierpont Morgan and supposed to emanate from opponents of the steel trust which is said to menace British industries. The Morgan banking house will only say that no such letters have been received there. From an authoritative source, however, it is learned there is no truth in the story.

### Dam Gave Way.

Lowell, Me., March 27.—The dam which furnished power for the municipal light plant, located eight miles above here on the Grand river, gave way. The Flat river, which flows into the Grand at this point, is at the highest stage ever known, and business firms and families are moving to higher ground. The Grand river is within seven inches of its high-water mark.

### Cape Town's Scourge.

Cape Town, March 27.—The bubonic plague situation is assuming a graver aspect. The proportion of European victims of the disease is increasing. Among those attacked were three soldiers belonging to different corps. A native employed in the navy died at Simonstown. Eight other colored cases and two of Europeans are reported from there, and one native died.

### Kilbourne a Candidate.

Columbus, O., March 27.—Formal announcement is made of Colonel James Kilbourne's candidacy for the Democratic nomination for governor of Ohio.

Mr. Rodenberg, the new Civil Service Commissioner, was one of the Congressmen who attempted to vote down the Civil Service Commission appropriation in the House last year. In the face of this record he has been given a place at the head of the Commission. And still they say McKinley is in favor of Civil Service.

JOHN L. BOSLEY, who was convicted for embezzling money order funds while Postmaster at Paris, was pardoned by the President Tuesday. The Attorney General says that Bosley had no fraudulent intent in misapplying the funds, and promptly made restitution. This is one pardon granted by the President that will be approved by all who are acquainted with the facts. Those who know Mr. Bosley do not believe he would be guilty of defrauding any one.

A Boston fidelity and trust company has compiled a list of the embezzlements and defalcations throughout the United States during the past year. It foots up to \$8,090,878. The Federal and State governments were touched for \$1,162,771, the banks for \$1,754,984, the court trusts for \$1,065,464, benevolent associations for \$128,932, municipal governments for \$865,694, etc. And if all the embezzlers were given just sentences by the courts, the President and Governors would pardon half of them in less than five years. The embezzling record will grow as long as such leniency is shown the thieves.

Scioto County farm lands were decreased 20 per cent. by the State Board of Equalization. Scioto County, dear reader, is in Ohio. If it were in Kentucky, the tax would have been increased 20 per cent.—Public Ledger.

And in Scioto County the tax rate is about \$4 on every \$100, while in Mason County the tax rate, (county and State included) is less than \$1 on the \$100. But that cuts no ice with the editor of the Ledger who loses no opportunity of late to decry his own State. If he is so awfully dissatisfied with Kentucky, why doesn't he pack up and move to some of the Utopias he is everlastingly prating about? There's no string to him.

### "Theodora" Date Here Cancelled.

The following is self-explanatory:  
LEXINGTON, Ky., March 27, 1901.  
Messrs. Russell, Day and Frank, Managers Opera House, Maysville, Ky.—Dear Sirs: Telegram from manager of company informs me that "Theodora" will close, March 30th. Yours truly,  
E. D. SHAW.  
This attraction was booked to appear here next Monday night.

Mr. Alvin M. Wallingford and Miss Mattie M. Rudy, of the Sixth ward, were married last evening by Rev. Edward Allen, the ceremony taking place at his home. The bride is a daughter of Mr. Newton C. Rudy, and one of the city's estimable young ladies.

The Misses Lee's home, opposite the convent, was entered, during their absence at prayer meeting last evening, by a thief who secured three rings and a breastpin. A watch and some other jewelry in the room were not disturbed. The thief entered through a rear door, by means of a key.

The services at the M. E. Church, South, last night were unusually interesting. The congregation seemed to be deeply impressed and at the close six persons presented themselves for prayer. Rev. Mr. Lowry is uniting in his labors, and the church is standing by him. The hours of service remain at 3 and 7 p. m. each day.

### PERSONAL.

—Miss Young, of Fleming, is with her brother, Mr. L. H. Young, of the Racket store.  
—Miss Katherine Clay Cox has resumed her studies in a Philadelphia school.  
—Mr. T. P. Bradley has returned to Ashland after spending a few days here on business.  
—Mrs. Thomas J. Chenoweth and Mrs. James A. Johnson attended the funeral of the late Hon. T. F. Marshall of Augusta, Wednesday.  
—Dr. James H. Cochran, after spending two or three months here, left this week for his home in Idaho, going by way of Danville and Lebanon.

#### Strikes a Rich Find.

"I was troubled for several years with chronic indigestion and nervous debility," writes F. J. Green, of Lancaster, N. H. "No remedy helped me until I began using Electric Bitters, which did me more good than all the medicine I ever used. They have also kept my wife in excellent health for years. She says Electric Bitters are just splendid for female troubles; that they are a great tonic and invigorator for weak, run-down women. No other medicine can take its place in our family." Try them. Only 50c. Satisfaction guaranteed by J. Jas. Wood & Son, druggists.

## WILLIAM WORMALD

### Death Claims One of Maysville's Best Citizens.

The End Came Wednesday Shortly Before 12 O'clock—Had Been Ill Since Feb. 22nd.

Mr. William Wormald died Wednesday morning at 11:45 o'clock at the family residence, northwest corner of Third and Wall streets, of nervous prostration, complicated with other troubles.

He was stricken on February 22nd, and had steadily declined. His condition for the last ten days or two weeks had been such as to leave but slight hope of his recovery, and his friends were, therefore, in a measure prepared for the sad news of his demise.

Mr. Wormald was born in Maysville, and was sixty-five years old June 4, 1900. He was a son of the late Jacob and Frances (Cox) Wormald, the family having been prominently identified with the city of Maysville a long time. On May 24th, 1870, Mr. Wormald was united in marriage to Miss Charlotte E. Blatterman, daughter of George W. and Eleanor (Collins) Blatterman. His wife survives him, with three children, Walter C. and Marian N., of this city, and Frank A., of Cincinnati. He is also survived by two sisters, Mrs. T. M. Rice and Mrs. H. T. Bray, of Booneville, Mo.

Mr. Wormald was for many years one of Maysville's leading coal merchants, and was prominently identified with the business interests of the city most of his life. His upright life ever commanded the esteem and confidence of his fellow citizens. And while active in commercial pursuits he never neglected his religious duties. He was one of the most faithful members of the Church of the Nativity, and for nearly thirty years had served as Senior Warden of the local parish. He was also an earnest and zealous advocate of the Y. M. C. A. and had served as a member of the Board of Directors from its first organization in this city, and was often honored with the position of temporary Vice President of the Board. In his death Maysville loses one of her best citizens.

The funeral will take place next Sunday afternoon at 2:30 o'clock at the Church of the Nativity. Services by Rt. Rev. L. W. Burton, Bishop of the Lexington Diocese, assisted by Rev. Augustin J. Smith, rector of the parish. Interment in the Maysville Cemetery. Burial private.

Red Corner clothing store for rent. Apply to W. S. Watson.

The game of basket ball scheduled to be played at Y. M. C. A. to-night will not be played this week on account of death of Mr. Wm. Wormald.

Mr. John Dooley, an aged farmer, died Wednesday morning at his home near Wedonla, and was buried this morning at 11 o'clock at Washington. His wife died a few weeks ago.

For ready mixed paint that's guaranteed call at Ray's Postoffice drug store.

A revival at Paris has resulted in eighteen additions to the Baptist Church.

Mr. T. M. Fleming has purchased the Merchants' Hotel at Flemingsburg for \$9,000.

Mrs. Margaret Schwartz, President of the Rebekah State Assembly, has returned from Ashland, where she spent a few days on business. While there she was the guest of Captain Willard Carr and wife.

Mr. R. M. Stevenson, of Tollesboro, died Wednesday, aged seventy-two years. He is survived by his wife, one daughter and three sons. One of his sons is a physician of Lebanon, Ind., and another is in the insurance business at Buffalo, N. Y.

Rings, from the plain polished bands to the most ornate creations of the designer, set with sparkling diamonds or other glittering gems, anything to suit your taste. We would be pleased to show our beautiful assortment. BALLENGER, jeweler and optician.

Sherman Starrett, of Minerva, claims he was held up and robbed of \$125 by three men at the bridge over Beasley Creek in the West End Tuesday night. He was accompanied by his fourteen-year-old brother at the time and had been frequenting the saloons during his stay in Maysville.

Rev. Dr. Geo. W. Young, Field Secretary of the Interdenominational Temperance Society of Kentucky, will deliver an address next Monday night at 7:30 o'clock at the M. E. Church, South, Washington. Everybody invited. Dr. Young is one of the ablest speakers of the day on this subject, and all should hear him.

Medical Director Dr. Wm. T. Hord, Medical Director U. S. N., retired, is ill with gangrene and diabetes at his home in Washington City and is not expected to live. Dr. Hord is a native of Kentucky, born in or near Maysville, and has many relatives in this city, being a brother of Mrs. Mary Clark and Mrs. J. B. Noyes.

The Kentucky volunteer officers of the army now serving in the Philippine Islands, who are not disqualified on account of age, have applied for lieutenantcies in the regular army. Reports received at the War Department indicate that all of these officers have good records. Lieutenant Carroll Power of Flemingsburg is among the number.

### Night Was Her Terror.

"I would cough nearly all night long," writes Mrs. Chas. Applegate, of Alexandria, Ind., "and could hardly get any sleep. I had consumption so bad that if I walked a block I would cough frightfully and spit blood, but, when all other medicines failed, three \$1 bottles of Dr. King's New Discovery wholly cured me and I gained fifty-eight pounds." It's absolutely guaranteed to cure coughs, colds, la grippe, bronchitis and all throat and lung troubles. Price 50c. and \$1. Trial bottles free at J. Jas. Wood & Son's drug store.

## I Don't Want to Worry My Friends Nor The Public, But I Certainly Am Going to Retire From Business,

And at least want my friends and past patrons who have so generously patronized me in the past fourteen years to enjoy the benefit of getting some of the finest clothing ever brought to Maysville

## AT LESS THAN THE COST OF PRODUCTION!

I have never been the one to sing my own song of praise and will not now, on the eve of my retiring from business, but leave my old patrons the sole judges of the class of CLOTHING I have always handled. To those who have not had an opportunity to know our clothing I will ask that you call and look at them. I will soon send what I have left to Cincinnati to be sold to merchants, and many of them may be brought back to Maysville and sold to you at double what I ask for them. Respt.,

### A MONOPOLY'S GRIP.

Glass Trust Gives People an Object Lesson On Combines.

The Tremendous Advance in Prices of Glass Shows Who Is Benefited.

(Cincinnati Post.)

A return to the greased paper window of mediaeval ages is suggested if the plate and window glass trusts continue in operation. Since Jan. 1 last the American Window Glass Company and the Independent Window Glass Company, in combination, have increased the price of ordinary window glass 62½ per cent., and they are not done yet. In the last two years the Pittsburgh Plate Glass Company, which has a monopoly in this country, has increased the price of that article 200 per cent. Rich and poor consumers alike will pay the fiddler.

The common window glass combine, having the product of the works of the American Window Glass Company, capitalized at \$17,000,000, and handling, through the Independent Window Glass Company, the output of factories up to this year independent, controls 90 per cent. of the output of the country.

Just after its formation, in January, prices were raised 30 per cent. Last week prices to jobbers were raised 25 per cent. more, making a total increase of 62½ per cent. over the original, or normal price. In order to let small dealers down easily, jobbers increased their prices last week 12½ per cent. only, and will add another 12½ per cent. April 1, their stock on hand enabling them to do this without loss. The increased prices have so far not fallen with full force, as the demand up to this time has been mostly of a speculative character. In June, July and August, when building is in greater progress, the consumer will feel the burden most. Dealers fear a demoralization of trade and a lessening

of the demand as a result of the tremendously exaggerated prices.

Working hand in hand with the common window glass trust is the Jobbers' Association, capital \$500,000, incorporated fifteen months ago, and composed of leading jobbers of the country, many forced into the organization as a matter of self-preservation. Members of the association, which is limited, jointly purchase glass in large quantities just before rises in prices, thus making a handsome profit.

According to the head of a Cincinnati jobbing firm, which is an unwilling member of the association, the present high tariff is in the main responsible for both the window and the plate glass trust. The existing duty on glass is from 50 to 125 per cent. ad valorem, which is practically prohibitory. In addition, foreign competition in ordinary glass has been rendered impossible by another strange state of affairs, the existence of a long-drawn-out strike of glassblowers in Belgium, where most of Europe's glass is produced. Advances to the Cincinnati jobbers referred to indicate no chance of a settlement of the tie-up, already eight months in progress.

The strikers are being cabled \$1,500 to \$2,500 weekly from American workmen, and it is alleged, from manufacturers in the trust.

"The former contribute because of sympathy with brother laborers, and the latter because of a chance to shut off competition and satisfy inordinate greed," said the jobber. "It is probably the first instance on record where capital has aided labor in a strike.

"With the foreign supply cut off doubly, by our high tariff wall and the strike, the consumer is at the mercy of the trust. There is no limit to the exorbitant increases in price which may follow.

"I am a Republican and voted for McKinley, but I have always been bitterly opposed to protection. The glass industry is fifty years old and no longer an infant needing protection. We can make glass as cheaply as any country. All needed is fuel and labor. The trust excuses its gouges by arbitrarily preening an increased demand; but it is absurd to think the demand will increase 62½ per

cent. The whole thing is a plain out-and-out robbery."

The plate glass trust, the other gigantic trust which is crushing the consumer, has resorted to intimidation to cinch its monopoly. Jobbers have been threatened that if they do not give up importation of plate glass their entire supply of American glass would be shut off.

The effect of exorbitant increases in prices is being closely watched by Cincinnati dealers and others over the country, many of whom expect a crash when a lessened demand naturally results.

WRECKED BY FLOODS.

Utica, N. Y., March 27.—A passenger train on the Delaware, Lackawanna and Western was ditched by a wash-out three miles south of Norwich. The engine and cars lie six feet under water in the Chenango river. One passenger was hurt. The wrecking train sent out from Utica soon after ran into a washout between North Norwich and Sherburne and was also ditched.

HOLDS ITS GROUND.

This is the Testimony From Everywhere as Well as Maysville.

Can this be so? Is it true? Are the facts as stated? These questions which every man and woman in Maysville suffering the tortures of backache ask as they read the published accounts in newspapers about medicines which claim to cure it. Whatever the conclusion arrived at they can't flinch from or disprove the following, for it took place in Maysville and the experience is that of a citizen.

Mr. J. B. Roper, proprietor of the inn and restaurant, 125 Market street, says: "Doan's Kidney Pills, which I procured at J. Jas. Wood & Son's drug store, corner of West Second and Market streets, do all that is claimed for them and do it promptly and thoroughly. From personal knowledge I cheerfully testify to their value and effectiveness."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name, Doan's, and take no substitute.

ABOVE THE CLOUDS.

Aeronauts Grew Too Weak to Throw Out Further Ballast.

At Vincennes a balloon experiment has been carried out with a view of ascertaining how high the balloon could go. The balloon, occupied by Captain Balsan and M. Godard, attained an altitude of 22,000 feet. During the ascent Captain Balsan became insensible and was almost paralyzed, and only by the prompt attentions of his companion, who administered oxygen, was he able to recover. After that both held the oxygen tubes in their mouths. At 22,000 feet they still had ballast to throw out, but they had become so weak that their combined strength would not enable them to throw the bag over the side, and they were compelled to descend.

The date of the funeral of the late James Rumford has not been announced yet.

A called meeting of the Board of Directors of the Maysville Cemetery Company will be held at the office of Judge Thos. R. Phister at 10 o'clock Friday morning.

J. JAMES WOOD, President.

### Women Who Work

Nine out of ten women are afflicted with some of the common ailments known as female diseases. Among women whose employment requires them to stand on their feet or sit in the same position all day, not one in twenty-five escape these troubles. The average feminine constitution cannot, unaided, withstand the strain to which steady, trying work subjects them. The organs of womanhood are so delicate and finely adjusted that the inevitable result of constant standing, lifting, stooping or straining is displacement of vital parts. The disorder is usually slight at first, but soon develops into irregular or painful menstruation, leucorrhoea or falling of the womb. Wine of Cardui is the right remedy for female weakness. As such it is offered to you. Wine of Cardui will not perform miracles, but it will, if taken as directed, insure painless and regular operation of the menstrual function. It will drive out every trace of leucorrhoea, and will so strengthen the ligaments that falling of the womb will be an impossibility. Don't you think it would pay you to try a medicine with such a record as that? You can get a \$1 bottle of Wine of Cardui at any drug store and use it in the privacy of your home.

### WINE OF CARDUI

Townsend, Ga., May 18, 1899.  
I have been in bad health with falling of the womb, weak back, nervousness and heart palpitation. At monthly periods I would be in bed suffering great pain. Lately I have been taking Wine of Cardui and Theodor's Black-Draught, and they have brought me wonderful relief. I have no pain, and do not stop work at the monthly period.
